DAILY ACCOUNT

SATURDAY 7TH OCTOBER

The group departed Rio de Janeiro's international airport on time at 09.30 and took the 2.5 hour drive to our base for the week, the wonderful Itororo Lodge, picking up some Cattle Egrets, Magnificent Frigatebird, Black-necked Stilt and a Great Egret on the journey.

Whilst the bags were being unloaded from the minibus and taken to our respective rooms, we started to watch the commoner species coming into the feeders, these included Maroon-bellied Parakeet, Brassy-breasted Tanager, Ruby-crowned Tanager, Blue Dacnis, Golden-chevrons Tanager, Dusky-legged Guan, Sayaca Tanager, Magpie Tanager, Azure-shouldered Tanager, Rufous-bellied Thrush and hummingbirds; Black Jacobin, Brazilian Ruby, Violet-capped Woodnymph and an Amythest Woodstar. Other birds included Chestnut-crowned Becard, Short-tailed Hawk, Variegated Flycatcher, Black Hawk Eagle, Scaled Woodcreeper and then Ray spotted a Swallow-tailed Cotinga in the tree just off the deck, what a bird!

We were shown to our rooms and lunch was served shortly afterwards at 13.00 followed by a short break when we met up again at 14.30 to spend the afternoon birding on some of the trails around the lodge.

It was a very productive afternoon with the following species of note being seen; Yellow-legged Thrush, Green-backed Becard, a beautiful male Blond-crested Woodpecker, Green-winged Saltator, Bertoni's Antbird, Bare-throated Bellbird, Plumbeous Pigeon, Pin-tailed Manakin, Olivaceous Woodcreeper, Black-goggled Tanager, Variable Antshrike, Rufous-capped Spinetail, Golden-crowned Warbler, Serra do Mar Tyrant Manakin, Ochre-faced Tody-Flycatcher, Yellow-eared Woodpecker, Lesser Woodcreeper and Plain Antvireo.

Swallow-tailed Cotinga

We then set off towards the White Trail picking up Mottle-cheeked Tyrannulet, Sharp-billed Treehunter, a fantastic male Spot-billed Toucanet, Surucua Trogon and a Rufous-crowned Greenlet. The sun had now dropped behind the distant mountains and birding activity started to drop off so we headed back towards the lodge. As we neared the lodge we came across a small swarm of newly emerged flying ants which had attracted various birds that were feeding on them, these included Swainson's Flycatcher, Burnished-buff Tanager, Swallow-tailed Cotinga, Streaked Flycatcher, Planalto Tyrannulet and a pair of Crested Becards. Also, in the area we recorded Streaked Xenops, Crested Oropendola, Spix's Spinetail and Glittering-bellied Emerald. Back at the

lodge we found a Grey-capped Tyrannulet in the trees above the decking area before setting off for a surprise bird close to the lodge.

Just as dusk was falling, we arrived at the spot and like clockwork, there they were, two male Long-trained Nightjars just feet away from us, what an amazing site! With a bit of time to spare before dinner we walked further down the track and used some playback for Rusty-barred Owl and within about 5 minutes, we had one sitting right above, a fantastic end to a wonderful first day of the tour!

Long-trained Nightjar

Rusty-barred Owl

We completed our first daily checklist of the tour prior to dinner being served at 19.00, after which we all retired to catch up on some much-needed sleep.

SUNDAY 8TH OCTOBER

As we met up on the deck at 05.45 it was clear that the weather had changed and was unexpectedly damp and cloudy. Today being Sunday, we were to spend the day birding the open country areas around Duas Barras and Sumidouro as there would be less traffic on the roads.

We departed straight after breakfast and drove quickly through Nova Friburgo and onwards towards our first stop close to Duas Barras. As usual, our first stop was very productive with Streamer-tailed Tyrant, Blackish Rail, Black-capped Donacobius, Wing-banded Hornero, Planalto Hermit, Yellow-bellied Elaenia and Rufous-fronted Thornbird all showing well, not a bad start!

Having driven on for another 10 minutes we pulled up by the roadside at a fragmented forest patch, with several target birds. All went well and it wasn't long before we had good views of Grey-headed Tody-Flycatcher, Blue-winged Parrotlet, Southern-beardless Tyrannulet, the beautiful Gilt-edged Tanager, Sapphire-spangled Emerald, Yellow-olive Flycatcher, Euler's Flycatcher and Red-rumped Cacique. Our next two stops produced Black Hawk-Eagle, Toco Toucan, Blue-winged Macaw, Bran-coloured Flycatcher, Chivi Vireo, Guira Cuckoo, Chopi Blackbird, Grassland Sparrow, Cattle Tyrant, Fork-tailed Flycatcher, Short-crested Flycatcher, White-rumped Swallow and White-eared Puffbird.

We stopped briefly to have some coffee and cake in a small bakery in the town of Duas Barras before taking the dirt road towards Sumidouro for the remainder of the morning. This road was super productive and the weather had also improved, but thankfully remained cooler than usual making for excellent birding conditions. Highlights included Buff-necked Ibis, Ringed Kingfisher, Narrow-billed Woodcreeper, Yellow-browed Tyrant, Firewood Gatherer, Campo Flicker, White-rumped Monjita, Lineated Woodpecker, Long-tailed Tyrant, Plumbeous Kite, Curl-crested Jay, Yellow-eared Woodpecker, Purple-throated Euphonia, Yellow-chinned Spinetail, White-browed Blackbird, Swallow Tanager, Chestnut-capped Blackbird, Aplomado Falcon and after a lot of effort, Red-legged Seriema!

Grey-headed Tody-Flycatcher

We stopped further along the track for our picnic lunch and also picked up several Plumbeous Kites, Black and White Hawk-Eagle, Rufous-headed Tanager, White-winged Becard, great views of Half-collared Sparrow, Lesser Woodcreeper, Hangnest Tody-Tyrant and Masked Yellowthroat.

Chestnut-backed Antshrike

Next up we headed back onto the main road towards Sumidouro, stopping at our reliable spot for the Three-toed Jacamar. It didn't disappoint, being found almost instantly by Mike. Here we also picked up Serra Antwren, Savanna Hawk, Chestnut-backed Antshrike, White-barred Piculet, White-bearded Manakin, Sooty-fronted Spinetail, White-eyed Parakeet, Kent then spotted a Chaco Eagle and our last highlight of the day was a Crescent-chested Puffbird!

All in all an outstanding days birding with over 140 species being recorded!

We arrived back at the lodge at 17.15 and had some free time before dinner was served at 18.30. During this time both Pallid Spinetail and Short-tailed Nighthawk were recorded from the decking area and Sid and Julia went back up and got excellent views of the Long-trained Nightjar again.

MONDAY 9TH OCTOBER

A relatively clear day as we met up for breakfast but the forecast for later was rain, so we had to make the most of the earlier part of the day. We set off after breakfast and took the 45 minute drive down to the Tres Picos State Park headquarters. No sooner had we got out of the minibus and we started to find new species. First up was Red-necked Tanager followed by Green-headed Tanager, Violaceous Euphonia, Orange-bellied Euphonia, Grey-hooded Flycatcher, Scaled Woodcreeper, Saw-billed Hermit, Sombre Hummingbird, Streak-capped Antwren and White-thighed Swallow, not a bad start! We picked up a Black and White Hawk-Eagle soaring high towards some darker storm clouds that there were building up further down the valley.

We took a short trail into the forest to go after a few select targets. Thankfully we were successful getting good views of Ferruginous Antbird, Spot-breasted Antwren, Rufous-capped Motmot, surprisingly a pair of Salvadori's Antwrens and after a lot of effort, Spot-backed Antshrike. Kent also had brief views of a Whiskered Myiobius. We returned back in the direction of the car park and came across a small mixed flock containing Yellow-eared Woodpecker, Buff-fronted Foliage Gleaner, Scaled Woodcreeper and Olivaceous Woodcreeper.

We set off onto another short trail getting some good views of a male Black-cheeked Gnateater, Eared Pygmy-Tyrant, White-eyed Foliage-gleaner, White-throated Spadebill and another of the mornings targets, Plain-winged Woodcreeper and further along the trail we finally caught up with Grey-hooded Attila.

We returned back to the minibus and took a 10 minute drive uphill to the start of the Cedae Trail. Once we had moved away from the road, we tried some playback for a Solitary Tinamou that was calling close by, not surprisingly, this refused to come any closer! We did however get some nice views of Blue Manakin, Star-throated Antwren, Black-throated Grosbeak, Black-capped Foliage Gleaner and wonderful scope views of a Pale-browed Treehunter!

Red-necked Tanager

Grey-hooded Attila

It was now nearing 12.30, so we returned to the minibus and drove a further 15 minutes back up to the top of the mountain pass, had some lunch and then set off on the Theodoro Trail for the remainder of the afternoon.

Unfortunately, the weather was now clearly changing, becoming darker with a few spots of rain as we headed off into the forest. We used some playback to call in a Variegated Antpitta, which played hard to get with only a few members of the group getting countable views. We used some playback for Sharpbill that was calling almost non-stop in the trees above us, but by now the cloud was blowing in fast and the rain was becoming a little more persistent. In the absence of the Sharpbill showing, we did manage to get good views of a Planalto Woodcreeper before the heavens opened and we had to head back to the minibus. With this dramatic change in the weather, we headed back to the lodge for some tea, coffee and cake and birded from a much drier decking area! It was a productive hour with stunning views of a pair of Swallow-tailed Cotingas, just sitting casually in the tree opposite the deck, Scaly-headed Parrot, Pallid Spinetail, Yellow-legged Thrush, Azure-shouldered Tanager, Golden-chevroned Tanager, Scale-throated Hermit, White-collared Swift and Green-winged Saltator amongst other more common feeder birds.

We had a short break before dinner which was as usual followed by the completion of our daily checklist.

Black-cheeked Gnateater

TUESDAY 10TH OCTOBER

A damp and cold morning as we met up for breakfast with quite a strong breeze blowing cloud everywhere! As the forecast for everywhere was not great, we decided to head down into the lowlands in the hope that there might be less rain there. On the journey we drove through a real mixed bag of weather from broken sunshine to thick cloud and rain!

As we got closer to our destination of Regua the weather had improved and shortly before our arrival we stopped at some roadside ponds. It was a productive 15 minutes and we managed to see Toco Toucan, Channel-billed Toucan, Muscovy Duck, Whistling Heron, White-faced Whistling-Duck, Brazilian Teal, Snowy Egret, Black-bellied Whistling-Duck and a White-headed Marsh Tyrant. After a further 5 minutes of driving, we arrived at the wetlands and started our walk around the reserve and into the lowland forest where most of our important target birds should be!

On the way around the wetlands birds of note included Amazon Kingfisher, Pied-billed Grebe, Rufescent Tiger-Heron, Red-legged Honeycreeper, Greater Ani, Ringed Kingfisher, Anhinga, Purple Gallinule, Boat-billed Heron, Black-crowned Night-Heron, Green-barred Woodpecker, Lesser Yellow-headed Vulture and Brazilian Tanager.

Long-tailed Potoo

Next up we took a path into the lowland forest and out towards another circular trail. We got lucky picking up one of our main targets early on, a Sooretama Slaty-Antshrike followed shortly afterwards by a White-flanked Antwren and a couple of Crescent-chested Puffbirds and a White-barred Piculet.

White-bearded Manakin

Slightly further along we picked up a Versicolored Emerald together with great views of a Long-billed Wren. We finally caught up with a pair of Unicoloured Antwrens having tried at almost every

stop along the way. Some tanagers appeared overhead and with some further inspection we found both Flame-crested and Yellow-backed Tanagers, these were joined shortly afterwards by a Plain-winged Woodcreeper and an Eye-ringed Tody-Tyrant close by which gave surprisingly good views!

Next up we were lucky enough to find a Long-tailed Potoo (with chick) on the side of a tree....what a great bird! Further along we came across a couple of Ochre-bellied Flycatchers and another main target of the day, Scaled Antbird. We then came across a pair of White-throated Woodcreepers which responded well to playback, giving the group outstanding views! We then heard a Reddish Hermit close by and with a little effort, we managed to locate it sitting on a nearby branch. Next, we had a real challenge trying to find a calling White-bibbed Antbird, which unfortunately would not show itself, very frustrating, but we did pick one up later in the day, getting cracking views! Other birds of note included some very entertaining lekking White-bearded Manakins, White-shouldered Fire-eye and a rather obliging Southern Antpipit.

As we completed our nearly circular walk we arrived back at the wetlands in time to pick up a Rufous-thighed Kite and a Capped Heron before the heavens opened with a good tropical downpour, which accompanied us back to the minibus, not bad really getting just 30 minutes of rain at the end of the day!

We arrived back at Itororo lodge to some slightly better weather, had some tea, coffee and cake before taking a short break prior to dinner and the completion of our daily checklist.

WEDNESDAY 11TH OCTOBER

A cloudy start to the day saw us spending a full day birding within the Itororo lodge grounds, which has 50 acres of various habitats which makes for some excellent birding.

Maroon-bellied Parakeet at the Itororo lodge feeders

The day started well with a Fawn-breasted Tanager above the decking area followed shortly afterwards by a Rough-legged Tyrannulet. After breakfast we headed out towards the White Trail picking up a Yellow-browed Woodpecker shortly afterwards. Next up was a Roadside Hawk perched in the distance and an Orange-eyed Thornbird that came in well to some playback. We then came across a small mixed flock and had our first sighting of a White-collared Foliage-gleaner, White-browed Warbler, Plain Antvireo, Variable Antshrike, Blond-crested Woodpecker, Brassy-breasted Tanager, Rufous-headed Tanager and a White-necked Thrush.

Further along the trail we had some good views of an Ochre-faced Tody-Flycatcher and a beautiful Blue Manakin perched out in the open whilst a couple of Euler's Flycatchers fed above in the sub-canopy. We used some playback to call in a Sharp-tailed Streamcreeper before setting off onto the start of the Brown Trail in search of some more new species.

Blue Manakin in somewhat dark forest!

The next trail started well with good views of a Mouse-coloured Tapaculo (surprising just how long their toes are!), this was followed shortly afterwards by a male Green-crowned Plovercrest and a Drab-breasted Bamboo-Tyrant. We used some playback to call in a rather shy Grey-bellied Spinetail which actually ended up showing well for the group.

It was late morning and the birding had dropped off a little, so we headed back to the lodge for a coffee, just in time to pick up 2 Chestnut-bellied Euphonias by the decking area before lunch was served at 13.00.

After lunch we had a short break before heading out onto the Blue Trail at the back of the lodge. The forest was surprisingly quiet but we did manage to get the most amazing views of a male Giant Antshrike and a Rufous Gnateater, both new birds for the trip. We also had great views again of a White-collared Foliage Gleaner, White-throated Woodcreeper and arrived back at the lodge just in time for a Blue-naped Chlorophonia on the feeders, a great end to a great days birding..... not to mention the Swallow-tailed Cotinga's sitting at eye level, visible from the deck whilst drinking fresh coffee and eating homemade chocolate cake!

We met up for dinner at 18.30 and managed to whistle in 2 Short-tailed Nighthawks!

THURSDAY 12TH OCTOBER

A beautiful morning as we met up for breakfast, just perfect to go and do some high altitude birding! We set off straight after breakfast and some 45 minutes later we had parked up at our usual parking spot at 1700m in altitude. Today is all about quality birds rather than quantity, with the vast majority of the birds we were hoping to see being Atlantic Forest endemics.

We got off to a great start with a female Blue-billed Black-Tyrant followed by great views of one of our main targets, a male Large-tailed Antshrike! Next up was a Serra do Mar Tyrannulet, Rufous-crowned Greenlet, Green-crowned Plovercrest and a real crowd pleaser, a Black-billed

Scythebill! We walked a little further up the trail, getting brief but good views of a male Black and Gold Cotinga and our first Diademed Tanagers of the day. Next, we got lucky with good views of a Rufous-tailed Antbird, Bay-chested Warbling Finch and another endemic, Thick-billed Saltator... and it was not even 9am! Further up the track we found a Shear-tailed Grey-Tyrant followed by an Olivaceous Elaenia.

Green-crowned Plovercrest

We had now made it to our main look out spot for one of our mega targets, Grey-winged Cotinga. We used a little playback and had a response and slowly but surely the bird was moving closer. Suddenly I spotted it, put the bird in the scope but alas, after 3 people had seen it, it dropped out of the tree into the valley, so frustrating! We waited around a little longer, used a little more playback and then Kent spotted it, we put the scope on it and in the end, had "walk away" views, it simply just sat there whilst we all had multiple great looks!

Bay-chested Warbling Finch

With mission accomplished, we set off higher up the mountain to look for the Itatiaia Thistletail, another rare and range restricted endemic. On the way towards the steps that would lead us to the very top of the mountain, we had good views of a White-crested Tyrannulet, Velvety Black-Tyrant and a Bran-coloured Flycatcher. We started using playback for the Thistletail and after about 5 minutes and around 100 steps into the climb we got a response followed by good views of this rare little bird.

We started heading back down the steps, picking up good views of a Cinamon Tanager and Rufous-capped Antshrike along the way. All we were missing now was Rufous-backed Antwireo! Half way back down the trail and where we often get the Antwireo I used some playback, within a minute we were all having good views of this cool little endemic!

Having had such a successful mornings birding and seeing all of our targets we arrived back at the minibus just after 14.30. We took a short drive to another spot where we got to see the icing on the cake, a male Chestnut-headed Tanager, a perfect end to a perfect day!

We arrived back at the lodge around 16.30 having had quite a strenuous day! We chilled out on the deck, watching the Swallow-tailed Cotinga's and had some tea, coffee and cake!

Pre-dinner we whistled the Short-tailed Nighthawks in for some good views as they flew overhead and dinner was served as usual at 18.30, followed by completion of our daily checklist.

FRIDAY 13TH OCTOBER

Amazingly the last full day of the tour was already upon us, time had literally flown by!

Following a large storm, we woke up with no power and rain forecast from around midday, so we had a limited amount of time in which to see as many new species of possible.

We departed after breakfast for a days birding on the Macae de Cima trail, just a 30 minute drive from the lodge.

Hooded Berryeater

We arrived and the cloud was already building on the distant mountains, so we got straight to work picking up two good Atlantic forest endemics almost straight away, a couple of Uniform

Finches followed by a Tufted Antshrike followed by a Pale-vented Pigeon. There were plenty of Bare-throated Bellbirds around and a Grey-bellied Spinetail was calling close by.

We encountered a mixed flock that had Yellow-legged Thrush, Sharp-billed Treehunter, Buff-fronted Foliage Gleaner and Rufous-crowned Greenlet before using some playback to pull in a male Dusky-tailed Antbird, another new species for us.

White-browed Foliage Gleaner

Next up we used some playback for Saffron Toucanet but with no joy, we did however use playback to call in a Hooded Berryeater, another great Atlantic forest endemic which showed really well for everyone. With the weather slowly deteriorating I decided we should skip a few stops and head straight to our most productive part of the trail where we stood the chance of most new species. As usual, this spot did not disappoint!

First up we had Yellow Tyrannulet followed by good views of another mega, a White-bearded Antshrike which was followed by another mega, Spotted Bamboowren! We had some other birds moving through which included Green-barred Woodpecker and a Yellow-eared Woodpecker, but despite further playback, no Saffron Toucanet. We drive further along the track passing by some quality birds that were calling, but we had seen them well earlier in the week, so decided to press on and go after new species.

Our next target was Greenish Schiffornis which after several fly pasts, we eventually got good views of it together with a White-necked Thrush. Another mixed flock came through with several foliage-gleaners and woodcreepers and finally we managed to lure out a White-browed Foliage Gleaner, another new bird. Things were going well, but still no Saffron Toucanet!

At our next stop we came across a Whiskered Flycatcher, Streak-capped Antwren and Pin-tailed Manakin, which all showed well. Now mid afternoon and with the weather having taken a turn for the worse we started to head back towards the lodge, with several stops en-route to look for Saffron Toucanet, but still no luck.

As we drove over into another valley, it started to rain properly and the wind had picked up so we decided to have one last stop for yes, you guessed it, Saffron Toucanet. After a little playback we got a response and within 30 seconds we were all FINALLY getting great views of this fantastic bird, what an end to a productive days birding!

We arrived back at the lodge to fresh coffee, tea and cake and spent some time on the deck. Unfortunately, we were without power again and met up for a candlelit dinner (!) at 18.30, followed by our daily checklist.

Saffron Toucanet

SATURDAY 14TH OCTOBER

The last morning of the tour saw us meeting up for breakfast at the usual time and then heading off into the Itororo lodge grounds for a few hours birding prior to the groups departure at 11.00.

Rufous-capped Spinetail

We had very few species left to see so it was going to be a very focussed few hours! We first came across a nice mixed flock close to the start of the White Trail, this contained Rufous-capped Spinetail, Yellow-browed Woodpecker, Olivaceous Woodcreeper, Rufous-crowned Greenlet, Golden-crowned Warbler, Scaled Woodcreeper and Variable Antshrike. There were several Bare-throated Bellbirds around with their constant clanging carrying for miles!

We used some playback for both Such's Antthrush and Variegated Antpitta but unfortunately, although they both responded some distance away, they refused to come any closer. We did however get lucky after a lot of effort, all getting excellent views of White-breasted Tapaculo and some of the group saw a Rufous-breasted Leaftosser.

Yellow-browed Woodpecker

We arrived back at the lodge shortly before 10.00 and went through our final checklist of the tour.

Whilst we were spending our last few minutes on the decking area, we had a fly past of 5 Plain Parakeets and outstanding views of the male Swallow-tailed Cotinga that was now spending most of his time in the tree just off of the deck!

We'd had a wonderful weeks birding and had been extremely well looked after by Rainer and Bettina at Itororo lodge.

As a group we saw a total of 300 species with a further 14 species being heard only.

The following checklist is a full list of species seen and heard during the tour.

X = more than 8 seen

H = heard only

Date: OCTOBER		7	8	9	10	11	12	13	14
Birds									
TINAMOUS - Tinamidae									
Solitary Tinamou – NT	<i>Tinamus solitarius</i>			H					
Brown Tinamou	<i>Crypturellus obsoletus</i>	H	H	H	1	H	H	H	H
Tataupa Tinamou	<i>Crypturellus tataupa</i>	H							
DUCKS, GEESE, SWANS - Anatidae									
White-faced Whistling Duck	<i>Dendrocygna viduata</i>				X				
Black-bellied Whistling Duck	<i>Dendrocygna autumnalis</i>				2				
Muscovy Duck	<i>Cairina moschata</i>				6				
Brazilian Teal	<i>Amazonetta brasiliensis</i>				4

KINGFISHERS - Alcedinidae									
Amazon Kingfisher	<i>Chloroceryle amazona</i>				1				
Ringed Kingfisher	<i>Megaceryle torquata</i>		1		3				
MOTMOTS - Momotidae									

Rufous-capped Motmot	<i>Baryphthengus ruficapillus</i>			1	H	H		H	
JACAMARS - Galbulidae									
Three-toed Jacamar - E - NT	<i>Jacamaralcyon tridactyla</i>		1						
Rufous-tailed Jacamar	<i>Galbula ruficauda</i>			H					
PUFFBIRDS - Bucconidae									
White-eared Puffbird	<i>Nystalus chacuru</i>		1						
Crescent-chested Puffbird - E	<i>Malacoptila striata</i>		1		2				
TOUCANS - Ramphastidae									
Saffron Toucanet – NT	<i>Pteroglossus bailloni</i>							1	
Spot-billed Toucanet	<i>Selenidera maculirostris</i>	1		H				1	H
Channel-billed Toucan	<i>Ramphastos vitellinus</i>		1	1	7				
Toco Toucan	<i>Ramphastos toco</i>		X		2				
WOODPECKERS - Picidae									
White-barred Piculet	<i>Picumnus cirratus</i>		2	1	2			H	
Yellow-eared Woodpecker - E	<i>Veniliornis maculifrons</i>	2	1	1				1	
Yellow-browed Woodpecker - NT	<i>Piculus aurulentus</i>			H		1		1	1
Green-barred Woodpecker	<i>Colaptes melanochloros</i>				1			1	
Campo Flicker	<i>Colaptes campestris</i>		2						

Blond-crested Woodpecker	<i>Celeus flavescens</i>	1	1		1	2			H
Lineated Woodpecker	<i>Dryocopus lineatus</i>		1						
SERIEMAS - Cariamidae									
Red-legged Seriema	<i>Cariama cristata</i>		2				H		
CARACARAS, FALCONS - Falconidae									
Crested Caracara	<i>Caracara plancus</i>	1	6		2		2		2
Yellow-headed Caracara	<i>Milvago chimachima</i>		2		2				
Aplomado Falcon	<i>Falco femoralis</i>		1						
AFRICAN & NEW WORLD PARROTS – Psittacidae									
Plain Parakeet – E	<i>Brotogeris tirica</i>				H			H	5
Pileated Parrot	<i>Pionopsitta pileata</i>				H				
Scaly-headed Parrot	<i>Pionus maximiliani</i>				2		1	1	
Cobalt-rumped Parrotlet	<i>Forpus xanthopterygius</i>		5						
Maroon-bellied Parakeet	<i>Pyrrhura frontalis</i>	3	4	X	X	X	X	X	X
Blue-winged Macaw - NE - NT	<i>Primolius maracana</i>		3						
White-eyed Parakeet	<i>Psittacara leucophthalmus</i>		5	X	X	X	X	X	X
OVENBIRDS – Furnariidae									
Rufous-breasted Leaftosser	<i>Sclerurus scansor</i>				1		1		1

Olivaceous Woodcreeper	<i>Sittasomus griseicapillus</i>	2	2	2		1		2	1
Plain-winged Woodcreeper	<i>Dendrocincla turdina</i>			1	1				
Planalto Woodcreeper	<i>Dendrocolaptes platyrostris</i>	H		1		H			
White-throated Woodcreeper	<i>Xiphocolaptes albicollis</i>	H			2	2			
Lesser Woodcreeper	<i>Xiphorhynchus fuscus</i>	1	2	2		2			
Black-billed Scythebill	<i>Campylorhamphus falcularius</i>						1		
Narrow-billed Woodcreeper	<i>Lepidocolaptes angustirostris</i>		2						
Scaled Woodcreeper – E	<i>Lepidocolaptes squamatus</i>	1		1		1	1	H	H
Plain Xenops	<i>Xenops minutus</i>							1	
Streaked Xenops	<i>Xenops rutilans</i>	2	2	2	2	2			
Band-tailed Hornero – E	<i>Furnarius figulus</i>		2						
Rufous Hornero	<i>Furnarius rufus</i>		4						
Sharp-tailed Streamcreeper	<i>Lochmias nematura</i>					1	1	1	H
White-collared Foliage-gleaner - E	<i>Anabazenops fuscus</i>	H				3		H	H
Pale-browed Treehunter - E	<i>Cichlocolaptes leucophrus</i>			1					
Sharp-billed Treehunter	<i>Heliobletus contaminatus</i>	2						1	
Black-capped Foliage-gleaner	<i>Philydor atricapillus</i>			1					
White-browed Foliage-gleaner - NT	<i>Anabacerthia amaurotis</i>							1	

Ochre-breasted Foliage-gleaner	<i>Anabacerthia lichtensteini</i>			H					
Buff-browed Foliage-gleaner	<i>Syndactyla rufosuperciliata</i>	H		1			H		
Buff-fronted Foliage-gleaner	<i>Dendroma rufa</i>	1		4				4	
White-eyed Foliage-gleaner	<i>Automolus leucophthalmus</i>			1					
Rufous-fronted Thornbird	<i>Phacellodomus rufifrons</i>		4						
Orange-eyed Thornbird - E	<i>Phacellodomus erythrophthalmus</i>					1			
Firewood-gatherer	<i>Anumbius annumbi</i>		2						
Itatiaia Spinetail – E	<i>Asthenes moreirae</i>						1		
Pallid Spinetail – E	<i>Cranioleuca pallida</i>		1	1		1	2		
Yellow-chinned Spinetail	<i>Certhiaxis cinnamomeus</i>		2		2				
Grey-bellied Spinetail	<i>Synallaxis cinerascens</i>					1		H	
Rufous-capped Spinetail	<i>Synallaxis ruficapilla</i>	1				2	1	1	2
Spix's Spinetail	<i>Synallaxis spixi</i>	1							
Sooty-fronted Spinetail	<i>Synallaxis frontalis</i>		1						
ANTBIRDS - Thamnophilidae									
Silvery-flanked Antwren - E	<i>Myrmotherula luctuosa</i>				3				
Salvadori's Antwren - E - VU	<i>Myrmotherula minor</i>			2					
Unicolored Antwren - E - NT	<i>Myrmotherula unicolor</i>				2				

Streak-capped Antwren	<i>Terenura maculata</i>			1				1	
Serra Antwren – E	<i>Formicivora serrana</i>		1						
Star-throated Antwren - E	<i>Rhopias gularis</i>	H		2				H	
Rufous-margined Antwren	<i>Herpsilochmus rufimarginatus</i>				H				
Spot-breasted Antvireo - E - NT	<i>Dysithamnus stictothorax</i>			1					
Plain Antvireo	<i>Dysithamnus mentalis</i>	1		1		1		2	
Rufous-backed Antvireo - E	<i>Dysithamnus xanthopterus</i>						1		
Chestnut-backed Antshrike	<i>Thamnophilus palliatus</i>		2		H				
Sooretama Slaty Antshrike - E	<i>Thamnophilus ambiguus</i>				1				
Variable Antshrike	<i>Thamnophilus caerulescens</i>	2				2	2	1	1
Rufous-capped Antshrike	<i>Thamnophilus ruficapillus</i>					H	1		
White-bearded Antshrike - VU	<i>Biatas nigropectus</i>							1	
Large-tailed Antshrike	<i>Mackenziaena leachii</i>						1		
Tufted Antshrike	<i>Mackenziaena severa</i>							1	
Spot-backed Antshrike	<i>Hypoedaleus guttatus</i>			1					
Giant Antshrike	<i>Batara cinerea</i>					1	1		
Ferruginous Antbird - E	<i>Drymophila ferruginea</i>			2					
Bertoni's Antbird	<i>Drymophila rubricollis</i>	1				H			H

Rufous-tailed Antbird - E	<i>Drymophila genei</i>						3		
Ochre-rumped Antbird - E - NT	<i>Drymophila ochropyga</i>	H				1			
Dusky-tailed Antbird	<i>Drymophila malura</i>							1	
Scaled Antbird – E	<i>Drymophila squamata</i>				2				
White-bibbed Antbird - E	<i>Myrmoderus loricatus</i>				2			H	
White-shouldered Fire-eye	<i>Pyriglena leucoptera</i>				1			1	
ANTTHRUSHES - Formicariidae									
Short-tailed Antthrush	<i>Chamaeza campanisona</i>			H					
Cryptic Antthrush – E	<i>Chamaeza meruloides</i>	H		1		H		H	H
Rufous-tailed Antthrush - NE	<i>Chamaeza ruficauda</i>							H	
ANTPITTAS - Grallariidae									
Variigated Antpitta	<i>Grallaria varia</i>	H		1			H	H	H
GNATEATERS - Conopophagidae									
Rufous Gnateater	<i>Conopophaga lineata</i>					1			1
Black-cheeked Gnateater - E	<i>Conopophaga melanops</i>			1					
TAPACULOS - Rhinocryptidae									
Spotted Bamboowren - NE	<i>Psilorhamphus guttatus</i>							1	
White-breasted Tapaculo - E	<i>Eleoscytalopus indigoticus</i>								1

Mouse-colored Tapaculo - E	<i>Scytalopus speluncae</i>					1	H		
TYRANT FLYCATCHERS, CALYPTURA – Tyrannidae									
Planalto Tyrannulet	<i>Phyllomyias fasciatus</i>	2	1				1	1	
Rough-legged Tyrannulet	<i>Phyllomyias burmeisteri</i>					1			
Grey-capped Tyrannulet - E - NT	<i>Phyllomyias griseocapilla</i>	1						H	
Yellow-bellied Elaenia	<i>Elaenia flavogaster</i>		3						
Olivaceous Elaenia	<i>Elaenia mesoleuca</i>						2		
Southern Beardless Tyrannulet	<i>Camptostoma obsoletum</i>		3			1			
White-crested Tyrannulet	<i>Serpophaga subcristata</i>						1		
Yellow Tyrannulet	<i>Capsiempis flaveola</i>							2	
Southern Antpipit	<i>Corythopsis delalandi</i>				1				
Mottle-cheeked Tyrannulet	<i>Phylloscartes ventralis</i>	1				2	1	H	
Serra do Mar Tyrannulet - E	<i>Phylloscartes difficilis</i>						2		
Ochre-bellied Flycatcher	<i>Mionectes oleagineus</i>				2				
Grey-hooded Flycatcher	<i>Mionectes rufiventris</i>			1				1	
Sepia-capped Flycatcher	<i>Leptopogon amaurocephalus</i>		1	1		1		H	
Bran-colored Flycatcher	<i>Myiophobus fasciatus</i>		1				1		
Drab-breasted Bamboo Tyrant	<i>Hemitriccus diops</i>					1			H

Eye-ringed Tody-Tyrant - E - NT	<i>Hemitriccus orbitatus</i>				1				
Hangnest Tody-Tyrant - E	<i>Hemitriccus nidipendulus</i>		1						
Eared Pygmy Tyrant	<i>Myiornis auricularis</i>			1					H
Ochre-faced Tody-Flycatcher	<i>Poecilotriccus plumbeiceps</i>	1				1			
Yellow-lored Tody-Flycatcher - E	<i>Todirostrum poliocephalum</i>		2		1				
Yellow-olive Flatbill	<i>Tolmomyias sulphurescens</i>		2						
White-throated Spadebill	<i>Platyrinchus mystaceus</i>			2					
Cliff Flycatcher	<i>Hirundinea ferruginea</i>				1	1			
Euler's Flycatcher	<i>Lathrotriccus euleri</i>		1			2			
Yellow-browed Tyrant	<i>Satrapa icterophrys</i>		1						
Blue-billed Black Tyrant	<i>Knipolegus cyanirostris</i>						6		
Velvety Black Tyrant - E	<i>Knipolegus nigerrimus</i>						1		
White-rumped Monjita	<i>Xolmis velatus</i>		2						
Streamer-tailed Tyrant	<i>Gubernetes yetapa</i>	1	1						
Shear-tailed Grey Tyrant	<i>Muscipipra vetula</i>						2		
Masked Water Tyrant	<i>Fluvicola nengeta</i>	1	4		X				
White-headed Marsh Tyrant	<i>Arundinicola leucocephala</i>				2				
Long-tailed Tyrant	<i>Colonia colonus</i>		2						

Cattle Tyrant	<i>Machetornis rixosa</i>		3						
Piratic Flycatcher	<i>Legatus leucophaeus</i>	1							
Social Flycatcher	<i>Myiozetetes similis</i>		2	2	4		2		
Great Kiskadee	<i>Pitangus sulphuratus</i>	2	X	X	X	X	X	X	2
Streaked Flycatcher	<i>Myiodynastes maculatus</i>	2	2	4		2		3	1
Boat-billed Flycatcher	<i>Megarynchus pitangua</i>		2	2	1	1	1		
Variegated Flycatcher	<i>Empidonomus varius</i>	2	2	3	2	2	1	2	
Tropical Kingbird	<i>Tyrannus melancholicus</i>	X	X	X	X	2	2	2	
Fork-tailed Flycatcher	<i>Tyrannus savana</i>		3						
Swainson's Flycatcher	<i>Myiarchus swainsoni</i>	1							
Short-crested Flycatcher	<i>Myiarchus ferox</i>		4						
Grey-hooded Attila – E	<i>Attila rufus</i>		H	1				H	
COTINGAS - Cotingidae									
Hooded Berryeater – E	<i>Carpornis cucullate</i>							1	
Swallow-tailed Cotinga	<i>Phibalura flavirostris</i>	1	1	2	2	2	2	2	2
Black-and-gold Cotinga - E	<i>Lipaugus ater</i>						2	H	
Grey-winged Cotinga - E - VU	<i>Lipaugus conditus</i>						1		
Bare-throated Bellbird - NT	<i>Procnias nudicollis</i>	2	1	H	H	1	H	8	2

MANAKINS – Pipridae									
Serra do Mar Tyrant-Manakin - E	<i>Neopelma chrysolophum</i>	1					H		H H
Blue Manakin	<i>Chiroxiphia caudata</i>	1		2	H	4		H	2
Pin-tailed Manakin – E	<i>Illicura militaris</i>	3		1		2		1	1
White-bearded Manakin	<i>Manacus manacus</i>		2	2	6				
TITYRAS, BECARDS, SHARPBILL – Tityridae									
Sharpbill	<i>Oxyruncus cristatus</i>						H		
Whiskered Myiobius	<i>Myiobius barbatus</i>			1	1				
Black-tailed Myiobius	<i>Myiobius atricaudus</i>							1	
Greenish Schiffornis	<i>Schiffornis virescens</i>						H	1	
Green-backed Becard	<i>Pachyramphus viridis</i>	1	1	1	1	1	1	1	1
Chestnut-crowned Becard	<i>Pachyramphus castaneus</i>	2	2	2	1	2	2	2	2
White-winged Becard	<i>Pachyramphus polychopterus</i>		2			H		H	
Crested Becard	<i>Pachyramphus validus</i>	2		2	1				
VIREOS, GREENLETS, SHRIKE-BABLERS – Vireonidae									
Rufous-browed Peppershrike	<i>Cyclarhis gujanensis</i>	H		1			H		
Rufous-crowned Greenlet	<i>Hylophilus poicilotis</i>	1					1	1	1 1
Chivi Vireo	<i>Vireo chivi</i>		1	1					

CROWS, JAYS - Corvidae									
Curl-crested Jay	<i>Cyanocorax cristatellus</i>		3						
SWALLOWS, MARTINS - Hirundinidae									
White-rumped Swallow	<i>Tachycineta leucorrhoa</i>		1						
White-thighed Swallow	<i>Atticora tibialis</i>			1					
Blue-and-white Swallow	<i>Pygochelidon cyanoleuca</i>	X	2	2	4			2	
Southern Rough-winged Swallow	<i>Stelgidopteryx ruficollis</i>	X	X		X				
Brown-chested Martin	<i>Progne tapera</i>		1						
Grey-breasted Martin	<i>Progne chalybea</i>	X							
BLACK-CAPPED DONACOBIUS – Donacobiidae									
Black-capped Donacobius	<i>Donacobius atricapilla</i>		2						
WRENS - Troglodytidae									
Long-billed Wren – E	<i>Cantorchilus longirostris</i>				1				
House Wren	<i>Troglodytes aedon</i>		4	2	2	1	1	2	1
MOCKINGBIRDS, THRASHERS – Mimidae									
Chalk-browed Mockingbird	<i>Mimus saturninus</i>		3						
THRUSHES – Turdidae									
Creamy-bellied Thrush	<i>Turdus amaurochalinus</i>		2				2		

Yellow-legged Thrush	<i>Turdus flavipes</i>	4	2	5	2	3	4	4	2
White-necked Thrush	<i>Turdus albicollis</i>					1		1	
Pale-breasted Thrush	<i>Turdus leucomelas</i>		1	2	2	2	1	2	1
Rufous-bellied Thrush	<i>Turdus rufiventris</i>	X	X	X	X	X	X	X	X
OLD WORLD SPARROWS, SNOWFINCHES – Passeridae									
House Sparrow – I	<i>Passer domesticus</i>	X	X	X			X		
WAXBILLS, MUNIAS & ALLIES – Estrildidae									
Common Waxbill – I	<i>Estrilda astrild</i>		3		3				
FINCHES, EUPHONIAS - Fringillidae									
Blue-naped Chlorophonia	<i>Chlorophonia cyanea</i>					1			
Purple-throated Euphonia	<i>Euphonia chlorotica</i>		2						
Violaceous Euphonia	<i>Euphonia violacea</i>			3	4				
Orange-bellied Euphonia	<i>Euphonia xanthogaster</i>			2					
Chestnut-bellied Euphonia	<i>Euphonia pectoralis</i>					2			
NEW WORLD SPARROWS – Passerellidae									
Grassland Sparrow	<i>Ammodramus humeralis</i>		1						
Half-collared Sparrow - E	<i>Arremon semitorquatus</i>		1			H			
Rufous-collared Sparrow	<i>Zonotrichia capensis</i>	X	X	X	2	X	X	X	X

OROPENDOLAS, NEW WORLD ORIOLES, BLACKBIRDS - Icteridae									
White-browed Blackbird	<i>Leistes superciliaris</i>		2		6				
Crested Oropendola	<i>Psarocolius decumanus</i>	4	X	4	3	X	X	X	4
Red-rumped Cacique	<i>Cacicus haemorrhous</i>		X	X	X				
Giant Cowbird	<i>Molothrus oryzivorus</i>							1	
Shiny Cowbird	<i>Molothrus bonariensis</i>		4		2				
Chopi Blackbird	<i>Gnorimopsar chopi</i>		3		3				
Chestnut-capped Blackbird	<i>Chrysomus ruficapillus</i>		1		X				
NEW WORLD WARBLERS - Parulidae									
Masked Yellowthroat	<i>Geothlypis aequinoctialis</i>		1						
White-rimmed Warbler	<i>Myiothlypis leucoblephara</i>					2	H	H	
Golden-crowned Warbler	<i>Basileuterus culicivorus</i>	1	4	1		4	2	4	2
CARDINALS & ALLIES - Cardinalidae									
Red-crowned Ant Tanager	<i>Habia rubica</i>				H				
TANAGERS & ALLIES - Thraupidae									
Yellow-backed Tanager	<i>Hemithraupis flavicollis</i>				2				
Rufous-headed Tanager - E	<i>Hemithraupis ruficapilla</i>		1			1		H	
Swallow Tanager	<i>Tersina viridis</i>		1						

Red-legged Honeycreeper	<i>Cyanerpes cyaneus</i>				1				
Blue Dacnis	<i>Dacnis cayana</i>	4	X	X	6	2	2	2	
Green-winged Saltator	<i>Saltator similis</i>	2		1	1	1		1	1
Black-throated Grosbeak	<i>Saltator fuliginosus</i>			1					
Thick-billed Saltator	<i>Saltator maxillosus</i>						2		
Bananaquit	<i>Coereba flaveola</i>	2	X	X		X	2	3	2
Blue-black Grassquit	<i>Volatinia jacarina</i>		3						
Black-goggled Tanager	<i>Trichothraupis melanops</i>	4	1	3		5	1	2	
Flame-crested Tanager	<i>Loriotus cristatus</i>				5				
Ruby-crowned Tanager	<i>Tachyphonus coronatus</i>	4	2	6	4	4	2	4	4
Brazilian Tanager – E	<i>Ramphocelus bresilia</i>				2				
Double-collared Seedeater	<i>Sporophila caeruleascens</i>		1						
Chestnut-headed Tanager	<i>Thlypopsis pyrrhocomma</i>						1		
Bay-chested Warbling Finch - E	<i>Castanozoster thoracicus</i>						5		
Saffron Finch	<i>Sicalis flaveola</i>		X	3	2		1		
Uniform Finch	<i>Haplospiza unicolor</i>							5	
Fawn-breasted Tanager	<i>Pipraeidea melanonota</i>			1		1	1		
Diademed Tanager	<i>Stephanophorus diadematus</i>						7
