

ER 150 Birdobservations from a holiday in Denmark and southern Norway

I made this trip with my wife Inka and children Roos and Jan. We stayed one week in an house in Fanø, the northernmost island of the Danish Waddensea and one week in a house in southern Norway in Åpta at the northern end of Åpta-fjorden. We took the ferry from Hirtshals in northern Denmark to Kristiansand in southern Norway. On the way to Denmark we camped near Lüneburger Heide at Soltau-Harber, south of Hamburg. On the way back we camped near Hirtshals, on the Danish Waddensea island Rømø and again at Soltau-Harber. The weather was fine most of the time, except for some rainy moments in southern Norway.

Short description of the visited areas :

Lüneburger Heide area : on the way to Soltau we saw some birds near Rotenburg. Most birds were seen in the surroundings of the campground in Soltau-Harber, "Camp am Mühlenbach". On the campground is a small lake. The surrounding area is dominated by forest, but there are also some agricultural fields.

Fanø : island of 56 km² with only 3143 inhabitants. We stayed in a house at the southern end of the island, near Sønderho. In the central area of the island are some spruce-forests, the Plantage. Near Sønderho is a nice broad beach, a very small port and a kwelder area. Capital of Fanø is Nordby (3143 inhabitants), in the north of the island . Grønningen, an open area in the north of the island was visited once.

Hobro : small town at the western end of the Mariager Fjord (2800 inhabitants).

Hirtshals area : on the 3rd of august we observed several birds in the port and near Lønstrup, with its impressive dune Rubjerg Knude. On the 11th of august some birds were seen in the surroundings of camping Tornby Strand, just south of Hirtshals.

Farsund - Lyngdal area : we stayed in a small house at the northern tip of Åpta-fjorden in Åpta. Here we made several small excursions, some with our rowing boat on the Fjord. Twice a beautiful walk was made along the old road from the beginning of the tunnel on the way to Farsund to Framvaren, another Fjord. Once we drove to Lyngdal over the narrow and spectaculair road over Drange.

Lista : this peninsula on the southcoast was visited twice. Near the cape is a lighthouse and a bird-station. The ruins of Nordbjerg were visited once.

Lindesnes : a beautiful and rocky peninsula with many small bays and islands, at the southernmost tip of Norway.

Mandal area : Mandal, its beach Sjøsandene and nearby Tregde were visited on the way back to Kristiansand.

Kristiansand : some birds were seen from the Colour Line Ferry to Hirtshals. Two hours after departure one can still see the mountaineous norwegian coast.

Limfjorden : on our coastal trip from Hirtshals to Rømø we watched some birds at this beautiful and flat wetland-area. Along the road are some hides near Vejlerne and Tommerby Fjord.

Rinkøbing Fjord : some birds were seen from the birding-tower near Lønborg.

Rømø : island in the Waddensea connected tot the danish mainland by a dike. We camped near Toftum. The northern part of the island is a flat and open military zone. Most birds were seen in the early morning near Toftum in the meadows and nearby coastal area. At the southeastern tip of the island is a modern fishing port.

Meissendorfer Teiche Hüttensee : On the way to Hannover we discovered by accident this nice wetland with good access trail and watchtower. Some interesting birdspecies were seen, like Purple Heron, Eurasian Crane, Osprey and White-tailed Sea-eagle.

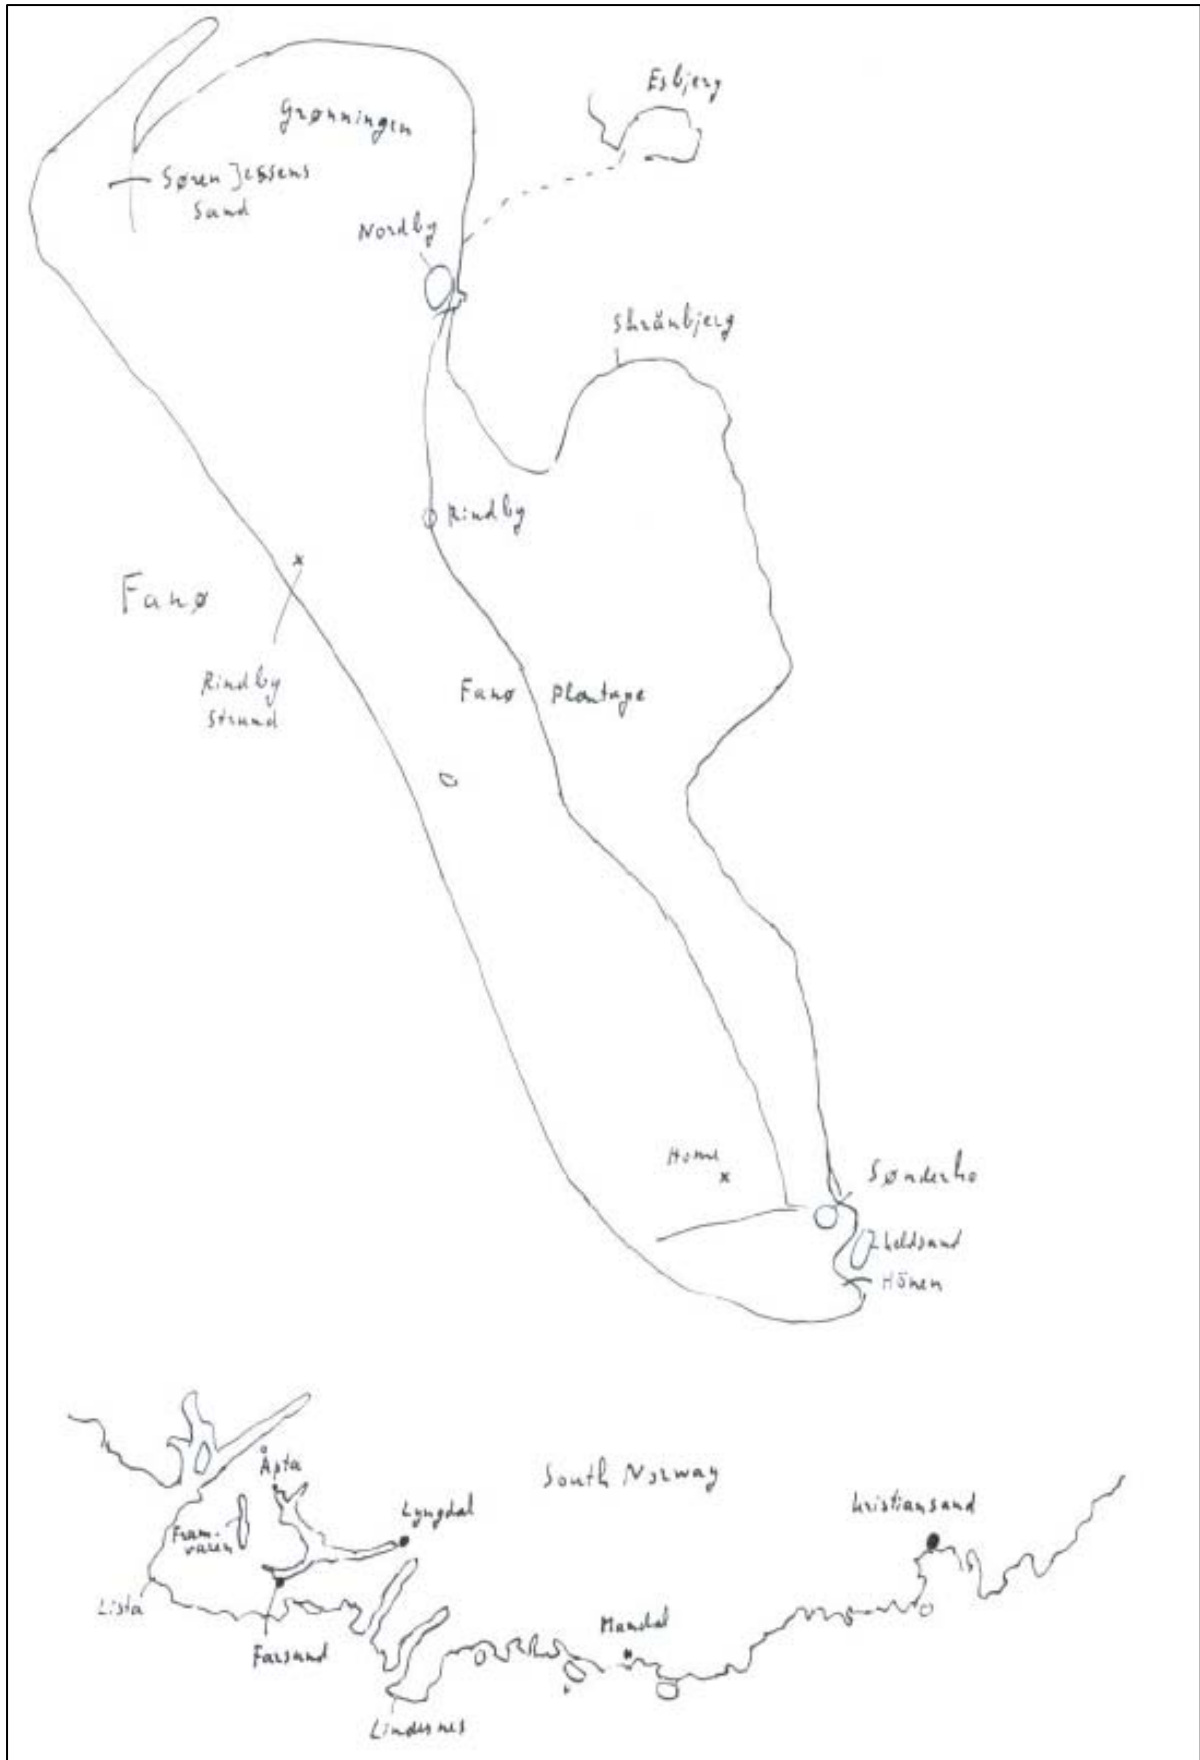

List of mammals :

- Bat spec. : 2 ex, Farsund - Lyngdal area
- Rabbit, *Oryctogalus cuniculus* : 45 ex (20, 12), Fanø
- European hare, *Lepus capensis*: 16 ex
 - 1 ex, Lüneburger Heide area
 - 15 ex (6, 3), Fanø
- Red squirrel, *Sciurus vulgaris* : 4 ex
 - 3 ex (2), Lüneburger Heide area
 - 1 ex, Farsund - Lyngdal area
- Eurasian Beaver, *Bever*, *Castor fiber* : two homes near Åpta
- Roe deer, *Capreolus capreolus* : 26 ex
 - 6 ex (3, 2), Lüneburger Heide area
 - 18 ex (7, 4), Fanø
 - 2 ex (1), Farsund - Lyngdal area - Log (1)
- Red Fox, *Vulpes vulpes* : 2 ex, Fanø (Farmen and Hönen)
- Common seal, *Phoca vitulina* : 1314 ex
 - 1274 ex (365, 350), Fanø
 - 10 ex (2), Farsund - Lyngdal area - Åpta-fjord en Framvaren
 - 30 ex, Rømø, Havneby
- Adder, *Vipera berus* : 1 ex, Lindesnes, Fyr

Number of species : 163
 Number of visits : 16
 Number of visitdays : 32
 Period : 26-7-2013 / 13-8-2013
