Our trip was organised by Nikhil Devasar/Enchanted India [www.enchantedindia.org](http://www.enchantedindia.org) who we highly recommend for birdwatching trips. Jintu (Jatin) Tamuly accompanied us throughout and proved an excellent guide and birding companion.

At Maguri Beel we recommend staying at Kohuwa Eco-camp [http://www.asom.in/kohuwa-eco-camp.html](http://www.asom.in/kohuwa-eco-camp.html), which is run by Palash Phukan, an expert local birder and guide – the camp is adjacent to the lake. We were also joined here for a couple of days by Firoz Hussain.

At Nameri National Park we stayed at Nameri Eco-camp [www.nameri.co.in](http://www.nameri.co.in), which is ideally situated for birding in the park and provides good accommodation, food and service.

We were joined for one day by Pratibha Riswadkar, who was doing research at nearby Pakke Wildlife Sanctuary.

At Kaziranga National Park we stayed at Wild Grass Resort [www.kaziranga.co.in/grass.php](http://www.kaziranga.co.in/grass.php), which is an ideal base for visiting all three sectors of the park and also provides good accommodation, food and service. We were expertly driven round by Mintu Jatuly and were joined for a few hours by Rofikul Islam and Pallab Prakash Saikia.
