<i>Falco cherrug</i>	1	7-1-2006	Kalinino

* Multiple little groups. Some pairs but mostly groups of 4 to 10 birds.

** We have seen the male singing but also a female with nesting materials!!

*** Many, many Pink Starlings!! On the dam around 15 to 25 thousand but later several groups of 10 thousand's of birds coming in for spending the night on the dam.

**** 1 Couple with 12 youngs

***** 1 Couple breeding between the little rocks. We saw the nest from a distance of 300 meters.
